11. List the major strengths of this course. What helped you learn?

Student	Response
Anonymous	1) The syllabus 2) Sharing slides 3) If I did not understand anything I was able to go back to the recordings 4) Group sessions
Anonymous	As a English as a second language student, having the opportunity to reinforce my grammar and appropriate use of the word on different scenarios is just fantastic.
Anonymous	Dr. Wynne was one of the BEST professors that I have had while at UDC! HANDS DOWN! He is patient, kind and understanding! The assignments were clear and if they were not he would answer any all all questions time allowed. His office hours were steadily available for us. There are many good things that I could say about Dr. Wynne, but the one thing that I would like to stress is the honest feedback that he would give to us. I would take another course with him!
Anonymous	helped me to work on correct grammar and punctuation that is very important to my major.
Anonymous	I really enjoyed how interactive this course was. The professor made learning easy and fun
Anonymous	Organized with class time and with assignments.
Anonymous	He is very detailed lol. He gets people involved even virtually almost as if he's done this before so its hard to goof off or "act" like you're present if you're not. He gave good feedback on my papers although sometimes i felt like he was just trying to find something wrong when it was a good enough explanation for a topic, but that's his job. I learned about annotated bibliography formats as well as which citing format would be specific to my field of study.
Anonymous	Planning an outline has to be my biggest strength.
Anonymous	The small PowerPoint and useful articles helped me learn. being able to go over your work asking for help share your work with others
Anonymous	Sharing in small groups to gain perspective helped me learn.
Anonymous	So far I have enjoyed the reading materials and have enjoyed the way the class takes place. I like the interactive approach rather than just lectures.
Anonymous	Something that facilitated my learning was the professor's patience. He understood the difficulties that comes with learning from home.
Anonymous	The documents provided throughout this course helped me improve my writing drastically!
Anonymous	- The professor's ability to be clear with explaining assignments/homework/projects etc. - The professor's ability to take his time to answer student questions/ concerns
Anonymous	The samples and explanations given were very helpful in completing essays and other pieces of work. Group discussion also helped for gathering opinions on topics. The professor was thorough in his teachings and gave all the necessary information to complete tasks.

**12. What changes could be made in this course to improve your learning?**

Student	Response
Anonymous	as far as online classes, I don't believe there is any improvements to be made. The professor made it as easy and straight forward as possible.
Anonymous	I cannot think of any changes that need to be made, as the professor's method of teaching is quite comfortable and necessary information is given to complete tasks.
Anonymous	I don't have any complaints or changes I would make to this course.
Anonymous	I think the main course project should no be focused on a "term paper" and should lean towards continuous evaluation and group activities.
Anonymous	I think the professor did a great job at managing class time and classwork.
Anonymous	It was not a very interesting course this semester, maybe more group conversations would help.
Anonymous	Less group discussions because different opinions make the class subject confusing.

Anonymous	No changes
Anonymous	No changes need to be made in the course.
Anonymous	None. I liked his class.
Anonymous	None, I think that Dr. Wynne did an excellent with the course being online. I was not as stressed as I was with my other classes.
Anonymous	Not a thing! Great Class, Great Professor
